

Washington State University's pome fruit breeding program (home of the Cosmic Crisp® apple) is seeking an Associate-in-Research to join the team producing new apple varieties and rootstocks for pear. Based at WSU's Tree Fruit Research and Extension Center in Wenatchee, WA, you will be part of the internationally recognized WSU tree fruit team. We're looking for someone with a M.S. in Horticulture (or equivalent), and ideally with orchard experience. Contact Kate Evans (kate_evans@wsu.edu) for more information. Posting closes September 8th. For more details about the position and TO APPLY go to https://wsu.wd5.myworkdayjobs.com/WSU_Jobs/job/Wenatchee-WA/Associate-in-Research_R-12196.
